Learn about your intuition, that wise sense within you that can help you make the right decisions, improve your health, guide your life, protect you, plus help you sense and understand the energies around you. In this talk, you'll learn more how to recognize and use it to heal and guide you.

We'll discuss the four types of intuition: clairvoyance, clairaudience, clairsentience and claircognizance, and which type may be yours. You'll learn how to distinguish between false and true intuition, plus how to recognize and remove any blocks to it.

Plus, you'll hear exciting stories about the times intuition has both guided me and literally saved my life!
