ANN WESSMAN grew up in Ireland swimming competitively at the age of 10, became a lifeguard, did synchronized swimming and has taught adults and children to swim for a total of 20 years. Her first experience in learning how to swim was when her sister said she would teach her. She was so excited! She took Ann to the deep end, let her go in the middle of the pool, and said swim to the wall! She did it, and thanks her now, but was not happy at the time. Not a good first experience. Anne doesn't want anyone to have to experience that fear, so teaching safety first is always her goal.
